# MUN Conference 2023

4th & 5th October at Crowne  
Plaza Hotel, Liverpool

The MEDITECH Users Network (MUN) supports healthcare organisations using MEDITECH developed software and technologies by providing a user-driven network environment conducive to learning.

It's where ideas are exchanged and information is shared so that our members can continually improve organisational performance.

MUN values the attendance of vendors at each annual conference, both in terms of content and the financial contribution they make. Many exciting opportunities are available to vendors at the MUN Annual Conference 2023 including:

- **Booths**
- **Presentation Slots**
- **Sponsorship**

As space is limited, MUN is required to assess the proposed contribution to be made by each vendor, shortlist, and then appoint on the basis of best fit for the MUN 2023 Conference and its members.

If you are interested in participating in this year's Annual Conference, please read on and then complete the online application form on our website [www.meditechusersnetwork.co.uk](http://www.meditechusersnetwork.co.uk).

Vendors will be notified of the outcome of the shortlisting process as soon as possible.

We welcome your support and thank you in advance for your valued contribution.

## Conference Theme - What does improving digital maturity mean for our patients?

This year the conference will focus on digital maturity and what that means for staff and patients. We want attendees both NHS and non-NHS to show examples of how they have explored the impact of digital maturity on patients and to share best practice. Vendors are also invited to present alongside MEDITECH and showcase where their solutions can support organisations in achieving and leveraging digital maturity.
